24 months

**Total budget**

492 565,26

**Project description**

The implementation of this project led to organized pre-school education of the under school age children and improved conditions for raising and education of children from both cross-border municipalities. Investment activities are related to construction of building for kindergarden in village of Vasilevo and local team heating installation in the kindergardens in the villages Mikrevo, Ilindenci and Strumiani. Preconditions for improved and equal opportunities for professional realization of the parents; transfer and exchange of good pedagogical practices, establishment of long term partner relations between the people from the two cross-border municipalities.

The project has been successfully accomplished in October 2014.
