

MUNICIPALITY OF STRUMYANI

ORDER

№ ПД-4/02.04.2020

For construction "Increasing the hydraulic conductivity of the Tsaparevska River on the territory of the village of Mikrevo, Strumyani Municipality, through innovative methods for water management (geo-cells)", located: Mikrevo village, Strumyani municipality, district Blagoevgrad was issued a Building Permit №16 dated 10.08.2017 by the Chief Architect of the Municipality of Strumyani and Order № ПД-5 / 21.03.2019 issued by the Chief Architect of the Municipality of Strumyani on the grounds of Article 152, paragraph 2 of the Spatial Development Act in connection with Art. 154, para 2, item 6 of the Spatial Development Act and & 5, item 45 of the Additional Provisions of the Spatial Planning Act (SDA) with the Assignor Strumyani Municipality. Pursuant to Art. 154, para 2, item 6 of the Spatial Planning Act (SPA) in connection with Art. 152, para 2 of the Spatial Development Act and & 5, item 45 of the Additional Provisions of the Spatial Planning Act (SPA)

I AMEND

Order № ПД-5 / 21.03.2019 issued by the Chief Architect of the Municipality of Strumyani on the grounds of art. 152, para 2 of the Spatial Development Act in connection with art. 154, para 2, item 6 of the Spatial Development Act and & 5, item 45 of the Additional Provisions of the Spatial Planning Act (SPA), an integral part of the Building Permit №16 of 10.08. 2017 for construction: "Increasing the hydraulic conductivity of the Tsaparevska River on the territory of the village of Mikrevo, Strumyani Municipality through innovative methods for water management (geo-cells)" located: Mikrevo village, Strumyani Municipality, Blagoevgrad region. In view of the characteristic hydraulic features of the Tsaparevska River, the project is structurally divided into two-phase implementation, each in two stages. The gradual division is in order to facilitate the process of realization of the site and the opportunities for financing the planned construction and installation works.

Phase 1 (First and Second Stages) includes construction of facilities in the more urbanized territory of the village of Mikrevo, up to the bottom concrete threshold №2, inclusive. The section is 635 m long.

The first stage starts with point 1 and ends with point 20, as the section is 365 m long.

The second stage has the beginning of item 20 and the end of point 32 (beginning of Phase 2), as the section is of length 270 m.

Phase 2 (First and Second Stages) covers the section from the bottom threshold №2 to the end of the section planned for correction (i.e. until the confluence of the Tsaparevska River with the Struma River). The section is 577 m long.

The first stage starts with point 32 and ends with an existing bridge at point 47, as the section is 291 m long.

The second stage begins with point 47 and ends - the connection with the river Struma, as the section is of length 286 m.

To amend Order № ПД-5 / 21.03.2019, an integral part of the Building Permit №16 of 10.08.2017 of the Chief Architect of the Municipality of Strumyani.

This Order is an integral part of Building Permit №16 dated 10.08.2017 and Order № ПД-5 / 21.03.2019 of the Chief Architect of Strumyani Municipality.

Pursuant to Article 91 para. 2 this Order is subject to appeal under the APC.

A copy of this order to be served on the interested parties under the Administrative Procedure Code (APC).
